That process just got easier with guest access When you add guests to your Office 365 group, you grant them access to all information within the group, including conversations, calendar, project notes, and so on.. • You can add a group as a favorite just like a folder Adding a group as a favorite gives you full access to conversation history when you are offline.. If it's a quick task Outlook will try to let you take care of it right from the Tell Me pane.. Add guests to your Office 365 Group If you regularly collaborate with partners who are outside of your school or organization then you know how difficult it can be to keep them in the loop.. • Within the Groups shared space, messages are grouped together for each conversation to facilitate quick communication with your team. ae05505a44 [driver bolt slim 10](#)
