 It is lightweight, portable and fairly easy to use, but it needs a few small improvements.. Latin to Cyrillic is a lightweight Java-based program designed for this very purpose, and it supports both the Serbian Azbuka and Macedonian alphabets.. It features a minimalistic design and is relatively easy to use, although it does need to be improved in certain respects.. No installation is required, and the software does not store data in any other location on your hard drive. [Ntfs 3g Mac Free Download](#)
